

Add a shortcut app to your home page using **Apple Safari**

1

2

- Open the David Chapman Agency page you use most
- 1) Click on the Send icon (square with arrow pointing up) which may appear at top of bottom of your screen depending on what device you are using.
 - 2) Click on Add to Home Screen icon (square with +)

The Agency icon should now appear on your home screen for one click access to our website
